Subject: FW: Be a Sport Support

As you know the season is underway and one of our key programmes is Be a Sport. All clubs should now have their requested bid replacements. I noticed (along with members of the Football Committee) that a number of teams in varying grades on the weekend did not have their BAS bibs on or appointed monitors.

You will remember to overcome any excuses that the following was put in place with the support of the referees:

1. A ref enquire at the same time they are doing a sprig or mouth guard check who the teams BAS appointees are. If they have not made this encourages them to do so. If they make an excuse the referee hands the team manager the spare BAS bib they carry .
2. If the team managements delay then the referee can advise the game will be played short for the period of delay.
3. In our coaches and managers meetings we cover if a game is delayed due to BAS.
4. They continue to note on the card in the applicable part of the team card yes or no. This also assists in monitoring around their Club is the Hub incentive.

What games were pointed observes on the weekend have been advised to the clubs applicable to address with their teams.

Your support in reminded the referees would be most appreciated.

Regards

Patrick Carthy
